

HYDROMULCHER T170

Charles Finn invented the Hydroseeder brand and registered it in the USA in 1953.

Today, FINN is the world market leader for Hydroseeders and Hydromulchers with a global market share of over 70% and works with over 175 dealers worldwide.

When you choose a FINN hydroseeder, you benefit from the greatest experience and innovation on the market, as well as the strength of a network that guarantees the longevity and productivity of your equipment.

Euro-Tec, official FINN importer since 2001, has become the largest European importer of the brand over the years. Euro-Tec has built its reputation on its permanent stock of machines and its after-sales service & spare parts.

Tank capacity	6 600 L
Motorisation	Cummins QSF 2.8 Diesel TIER IV-F, 65 hp (48 kW)
Mixing system	Variable and reversible mechanical agitation with hydraulic drive
Pump	Centrifugal 4" x 2" (10.2 cm x 5 cm), 320 RPM @ 115 psi (1 210 lpm @ 792 kPa)
Weight	3 070 kg empty / 11 000 kg full
Dimensions	503 cm (Length) / 234 cm (Width) / 251 cm (Height)
Projection platform	Projection platform with swivelling cannon
Available options	Electric hose reel 60 linear metres 1 ¼" Double controls at the bottom Volumetric pump (instead of centrifugal) Painted in the RAL colour of your choice
Spray distance	60 metre cannon exit
Application time full tank	6 minutes from the cannon
Mixing capacity	2 300 kg granular material (Fertiliser) / 340 kg fibrous material (Mulch)
Daily production capacity	42 000 m ² Hydroseeding / 9 500 m ² Hydromulching
